

Schick by Sirona

Schick 33 Testimonials

I upgraded to the new Schick 33 and am amazed at the quality of the images and the ease of the software. If you want to practice high quality medicine you will need the highest quality system...I highly recommend the Schick 33!

- *Matt Wilson, DVM*
- *Animal Clinic Northview, North Ridgeville, OH*

As a longtime satisfied Schick user, we took advantage of the upgrade/trade-in promotion and are we glad we did. The images are the clearest, most diagnostic images we've seen with outstanding detail and sharpness control and the new software is just as user-friendly as ever.

- *Debra Nossaman, DVM, FAVD, DAVDC*
- *Dallas Veterinary Dentistry & Oral Surgery, Southlake, TX*

We looked at almost every system on the market to upgrade and were Wowed by the clarity of the Schick 33 images. We pride ourselves on delivering only the highest patient care and our new Schick 33 helps us to very easily acquire a full mouth of stunning images in about five minutes. In communicating with patients, the images are so good they almost speak for themselves...quality dental images have definitely increased acceptance and perception of value of our services

- *David Hille, DVM*
- *Park Cities Animal Hospital, University Park, TX*

As a dental specialist, I have the opportunity to perform lectures and labs across the country. I have worked with many dental sensors and software during those labs. The reason why I chose the Schick 33 was for the excellent image quality and ease of software usage.
