

SCHICK ELITE: A POWERFUL PART OF THE SCHICK MODULAR PLATFORM.

# CONVENIENCE AND FLEXIBILITY COMBINE FOR AN ELITE VETERINARY EXPERIENCE.

**SCHICK ELITE SENSORS** have set the standard for simple, reliable digital intraoral imaging. Thanks to its robust, proprietary CMOS-APS platform, Schick Elite is an intelligent, affordable option for dental practices of every size. Featuring three sensor sizes, interchangeable cables, as well as WiFi and USB connectivity, Schick Elite is designed to grow along with your needs. **NOW THAT'S INSPIRING.**

## SCHICK ELITE FEATURES

Three sensor sizes meet the needs of every patient type

Interchangeable cable technology with spare sensor cable provided with each new sensor allows for on-site repairs and virtually no downtime.

Four levels of image edge enhancement for personalized preference

Enhanced freedom of movement with Schick WiFi connection option

IXEF casing for maximum durability mitigating risk of bite marks, scratches and nicks

16 lp/mm resolution

3.

1. Three sensor sizes ensure maximum patient comfort and image quality.
2. Users can easily toggle between wireless WiFi and hardwired USB.
3. Multiple cable lengths suit the needs of operatories of every size.

### ELITE DESIGN.

Designed with input from practitioners, Schick Elite offers a level of convenience, durability and flexibility that remains unmatched today. Four levels of image edge-enhancement to match your personal preference for detail. Additionally, a first of its kind, the Schick Elite offers a replaceable sensor cable to greatly reduce downtime and cost should anything happen to your cable.

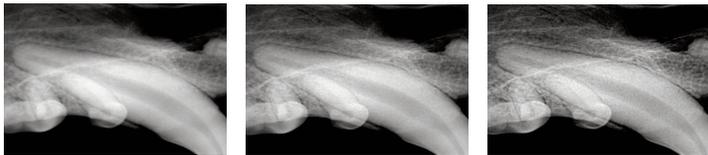

### ELITE FLEXIBILITY.

In addition to reliable USB connectivity, you can harness the power of Schick WiFi to offer a level of flexibility and freedom of movement that's unmatched. That's because it offers the ultimate in hot swappability, allowing you to move quickly and easily between operatories without having to drag cables and computers along.

## SCHICK TESTIMONIALS

The time saved with digital dental radiography is amazing and Schick in particular provides excellent quality images. This system is so reliable that in the four years that I've used it, I've never had a complaint!

**Linda L. Brooks, DVM**  
Northeast Veterinary Hospital,  
Cornelia, GA

The Schick system is very easy to learn with the software features intuitive and easily accessed from the menus. The quality of the images and time savings of the system make my Schick investment worth every penny.

**Bert Gaddis, DVM and DAVDC**  
Indian Springs Animal Clinic,  
Pelham, AL

Without a doubt the Schick system is my best investment and one of the most used pieces of equipment in my dental suite. Image quality is superb and the support is outstanding, allowing me to confidently practice without worry.

**Paul E. May, DVM**  
Vidalia Veterinary Clinic,  
Vidalia, GA

We get a lot of "WOW!" factor when we show the Schick radiographs to our clients. The diagnostic quality is so good they can see what is wrong. The software is so intuitive that we take a full mouth examination in just minutes. My staff would mutiny if we did not have Schick.

**Larry Kimberlin, DVM and FAVD**  
Northeast Texas Veterinary Dental  
Center, Greenville, TX
